

BOISE®

Diverse Earth™

Where Paper Meets Purpose™

When you look at the world, what do you see? We see a Diverse Earth™.

Diverse Earth™ paper was developed in partnership between Boise® and South Coast Paper to address environmental, social and economic sustainability—the triple bottom line. *Diverse Earth* paper is more than a simple office product, it makes a statement—a statement about the world we live in today and the possibilities for tomorrow. When your organization chooses *Diverse Earth* paper, it demonstrates a commitment to making that statement become a reality.

The introduction of *Diverse Earth* paper represents a major step by South Coast and Boise to bring sustainable products to the marketplace. *Diverse Earth* unites function with purpose. It not only satisfies paper performance needs but also aligns with an organization's goals for supplier diversity and environmental sustainability. It's multi-purpose on multiple levels.

- MBE Certified
